

URBAN SEARCH AND RESCUE STRUCTURAL/HAZARDS MARKING PAINT

ORANGE FLOURESCENT MARKING PAINT WITH
DISASTER SITE REFERENCE GUIDE
AT YOUR FINGERTIPS

	Structure accessible and safe for USAR Ops. Minor damage, little danger of secondary collapse.		Single slash upon entry = search in progress Left Quad: Note Time, Date & Company in.
	Large V near known or potential location of victim. Add arrow to point to location. Task Force/Company ID In V		Structure is significantly damaged. Some areas safe, others need shoring. Structure maybe pancaked.
	Cross the slash upon exit. Top Quad: Date & Time Personnel left structure		Circle around V when victim location is CONFIRMED . Visually or Audibly. >1 victim-mark Total under V.
	Structure is NOT safe for USAR Ops. Subject to sudden add'l collapse. Remote search at risk. If operating, create safe havens/escape routes.		Incomplete search
	Paint line through middle of V when victim is CONFIRMED Deceased		Note Time, Date and Team/Company ID after evaluation completed. Cross out hazards after mitigated.
	Right Quad: Personal Hazards Bottom Quad: Live & Dead victims still inside. "0" = No Victims! Floor & Quads, if needed, in box below "X"		Paint an X through the CONFIRMED victim marking after all victims have been removed.
	Arrow next to box indicates direction to safest entry		HM next to box indicates HAZMAT condition in or near structure. Consult a Haz-Mat Technician!
<p>*2 Ft. International Orange Markings (Crayon or Spray Paint) *Use normal access points if possible. *Use lumber markers for notes near markings. *Line out / update all changed information! *Search ALL markings at each area within structure. Rooms, voids, etc. No time/ID needed.</p>
